

## SELECTED dBzSHIELD® EMI/RFI Shielded Flexible Conduit Applications

Minuteman missile site retrofit (various applications) – sites nationwide

NAVSEA surface vessel electrical systems

Transportable military secure communication systems

Military water/fuel pumping systems

Mobile tactical shelters and EMP shelters

Power generation equipment and facilities

Air Force camera turret signal/power

Military unmanned robotic systems

Communications runs through secure office areas

Environmental control systems (ECS)

Ground support equipment

Mobile sensor antennas

Broadband antennas

Large Scale Inspection Equipment

Locomotive engines

Test enclosures and lab equipment

Industrial automation and food processing equipment

Alternative energy generation equipment
